to increase quality of life

AQUATIME 

Digital drinking glass
for minimising manual monitoring

Innovative Care Solutions

- Well-being for residents and caregivers

New innovative care solutions to support people's well-being and self-reliance. The best possible care available, regardless where the care takes place, being at home or in a nursing home. Let's work together for a brighter future in healthcare for the well-being of residents and caregivers.

Digital Incontinence Care

- Save time by minimising manual checks
- Products are changed on time
- Fewer leakages and wet beds
- Better night's sleep
- Up to 28% reduced waste *
